Subject

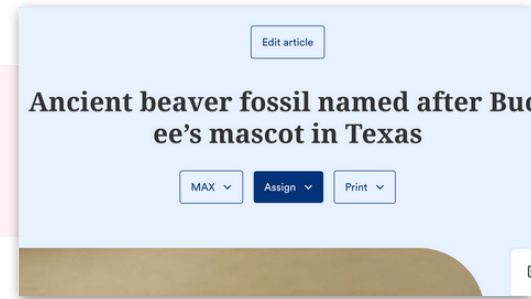

School

Elementary Content Filter

Microsoft

1 Find an article in Newsela you wish to assign and click Assign

2 Select the class(es) or student(s) for the assignment

3 Add any customization and click 'Create Assignment'.

What to look out for

My student is missing from my class on Newsela

- Make sure your student accessed Newsela through the link or code that you provided to them from Settings > Class Directory.
- Is the student listed as a teacher?
If yes, contact Newsela's support team [here](#) for assistance.

How can students join my class?

- Click your initials > Settings > Class Directory
- Click on the class > Invite Students
- Share class link or share class code
- Copy and paste the link or code to share with your students

Students are getting an error message: “Sorry, it looks like you don’t have permission to see this”

- Assign the article in Newsela, rather than only linking the article.

My assignments are showing up as independent reading

- Assign an article before clicking the share button.

I think I have a duplicate account in Newsela

- [Contact support here](#) and ask them to merge your accounts.
