High quality instructional content for Mississippi

Welcome to Newsela

This guide provides you with the information and steps to support Mississippi literacy efforts with Newsela.

Dear Mississippi District Partners,

Over the past year, we have been talking to many Mississippi schools and districts to understand the curricular resources needed to address the literacy gap and help teachers differentiate instruction, making learning accessible for all students.

We are thrilled to partner with you in this important work, and are proud to share complementary resources we have created to align to your ELA textbooks.

This guide was built to highlight how we are supporting your core ELA adoption. We would appreciate you reviewing these materials, and hope that you will join the other Mississippi districts that we are partnering with.

We look forward to speaking with you and providing you with more details.
