# Newsela Science

The best lessons start with the best content.

Integrate science and literacy at every grade level, with up-to-date real world phenomena, science career overviews, and more, all published daily at 5 reading levels and aligned to science standards. Content comes with embedded science activities and instructional supports for teachers.

WHAT MAKES NEWSELA SCIENCE GREAT FOR THE CLASSROOM?

Science content

- **1,000+ science-relevant texts** and counting

Science content curation & collections

- Specially organized **home page** for how science teachers teach
- **NGSS and TEKS collections** makes new science standards accessible and actionable in grades 3-5
- **Physical, Earth, and Life Science collections** for middle school use real world phenomena with instruction supports and performance tasks
- **Biology Explorations** is aligned with high school life science performance expectations
- **Seasonal STEAM** curates seasonal and holiday texts related to STEAM for elementary students

Science activities

- Science **multiple choice quizzes** are aligned to the Next Generation Science Standards (NGSS)
- Science **writing prompts** drive standards-based science and engineering literacy skills and use the claim, evidence, reasoning (CER) framework

Science standards alignment

- Content and activities are aligned to the **Next Generation Science Standards**
- Content selected and sequenced to enhance curricular materials from **Mystery Science, FOSS, StemScopes,** and **Amplify Science**
- Content is aligned to **state science standards**

EXPECT MORE FROM YOUR SCIENCE CONTENT

AUTHENTIC
Engage every learner with real-world phenomena and current events to drive inquiry-based skills and spark students' exploration.

ACCESSIBLE
Differentiate instruction easily with texts published at 5 reading levels.

CONSTANTLY UPDATED
With up to 10 new texts added daily, students connect scientific concepts with the world they live in.

ACCOUNTABLE
Get visibility into usage and student performance with built-in activities.
