

Refresh instruction in Louisiana schools with authentic and engaging content

Great content can make all the difference. The right resource facilitates meaningful classroom learning for every student, while covering state standards and working seamlessly alongside the resources you're already using. Newsela is packed with instructional resources that help teachers lead exciting lessons and motivate students to participate, and can help you supplement instruction across subjects with the context and relevance it needs.

Aligned to Student Standards for ELA, Science, and Social Studies

Flexible and engaging content across subjects

Works seamlessly alongside existing materials, including Louisiana Guidebooks

96%

of teachers spend time every week finding unvetted lessons and materials on Google when they don't have access to great instructional materials. ([EdReports](#))

Read on for more information on how Newsela can support Louisiana schools and districts.

Use engaging content and formative assessments to cover Louisiana Student Standards

With Newsela, teachers and students have thousands of relevant texts from real-world sources to choose from, with 10+ new texts published daily. And you can rest assured knowing that Newsela content, curations, and formative assessments are aligned to Louisiana Student Standards for ELA, Social Studies, and Science.

Differentiate instruction with leveled, digital-first content

With all texts published at five different reading levels, Newsela's content is made accessible for every learner. Automatically differentiated based on a student's just right reading level, teachers can continue their instruction while ensuring every student can access the same text.

Tailor instruction to your scope and sequence with customizable text sets and assignments

Newsela works seamlessly alongside the resources you already have with Curriculum Complements for dozens of popular providers. Better yet, teachers can curate content and customize assignments to work perfectly with the instructional resources they're already using, including Louisiana Guidebooks.
